- Volusia County's Thanksgiving Day Basket Brigade
- Cook & Server for local VFW
- Golf-A-Thon fundraiser for American Cancer Society
- Relay for Life

I am a student at Embry-Riddle Aeronautical University in Daytona Beach, Florida studying Aerospace Engineering. I just finished my second year and love every minute of it! I am learning so many valuable lessons I would not be able to learn anywhere else. This scholarship means so much, and I am thrilled I am able to continue my journey at Embry-Riddle.

I am receiving help from the university, but I still end up very short and depend on outside scholarships to keep me there. Because of your help, I can continue to follow my dream of designing advanced airframe technologies for the U.S. military with even more dedication! Growing up in a military family, I sincerely appreciate like as it is given to me, not something that is simply mine. I really want to do this by giving my time and skills back to this country.
