I am extremely honored to have been chosen as a recipient of this 2016 scholarship award. It means a great deal to me because it allows me to continue my education at the university of my dreams. My entire life has been spent working toward my goal of attending Clemson University and this scholarship allows that dream to continue to be a reality. This scholarship also allows me to achieve my goal of becoming a pediatrician for the United States Navy. Receiving this award puts me one step closer to medical school, where I plan on continuing my education. In my opinion, there is no greater honor than serving the future generations while serving our country. This scholarship helps me to achieve my dreams, while still allowing me to serve and help those serving our country. Thank you to the scholarship committee for awarding me one of the 2016 Wings Over America scholarships.
