- Year-Round Childcare provider.

I am incredibly honored and thankful to be a 2016 recipient of a Wings Over America scholarship. As someone who grew up in a Navy family, I am grateful that scholarships such as this recognize the many sacrifices that both service members and their families make in service to the country. This scholarship allows me to continue pursuing double majors in Psychology and Kinesiology at the College of William & Mary with the eventual goal of becoming a Certified Child Life Specialist. I am very grateful to have been selected and to know that military families like mine are supported by such a wonderful organization.
