Statement: I feel so honored to have been awarded this scholarship. This support from the Wings Over America Scholarship Foundation has helped me continue to pursue my goal of becoming a doctor and attending the Uniformed Services University of Health Sciences. Additionally, this semester I have been studying abroad at the University of Sydney in Sydney, Australia. So far it has been the experience of a lifetime and it would not have been possible without this support. Thank you so much for believing in me – I am eternally grateful. One day I hope to give back to my country like WOA Scholarship Foundation has supported me.
