Statement: Receiving the Wings Over America Scholarship has made a big impact in my life. In order to be fruitful and to use all of your gifts to their fullest potential it takes hard work, determination, faith, and trust. In order to succeed at anything it will take you hard work in order to do that because the easy way isn't a route that I consider an option. Determination is what allows your hard work to reach its fullest potential. Through my life I have encountered trial and error and there has always been one driving force to keep my going. That is my faith, when all else fails faith doesn't. He is my rock and my cornerstone and is always watching over me that is something I use every day to keep going. My parents have always said to keep up my hard work and its trust in my parents that they are right. That kept me working hard in classes. Receiving this award puts the piece of the puzzle together. That I am doing the right thing in my studies and extra-curricular activities; and that it all has paid off.
