- Works part time as associate at Panera Bread

Statement: This scholarship means a lot to me. This scholarship means that I can be less concerned with my financing college and instead focus more on my studies and being the best student I can be. Also, it reduces the stress on my family. My dad and entire family have already sacrificed a lot and it feels good to make the financial sacrifice of my college educational less. At Penn State, nursing is one of the most expensive majors on campus, so that every little bit helps offset the extra costs, I appreciate the continued support of the military and hope to give back to them through nursing. I have even begun to consider joining the Navy as a nurse, so that I can give back and show my gratitude and respect for all military personnel and their loved ones.
