Thank you for the Wings Over America scholarship. This \$3,000 scholarship helps cover tuition for the upcoming year at the University of Virginia. As a result, I will be able to decrease my work hours and spend more time on my academics and summer internships. Through a military upbringing I was taught the power of knowledge, an appreciation of the globalization of business and a strong sense of community. WOA has definitely shown me how dedicated they are by supporting the community of military aviation and this scholarship will also allow me to have more time to dedicate to community service and volunteer activities. With WOA's financial generosity; I am one step closer to completing my undergraduate degree in the McIntire School of Commerce. Thank you again for this incredible honor. I hope in some way, I can carry forward the WOA message of "invest in the best" and share the importance of supporting Wings Over America. I will give it my best- you can count on that!
