

Wings Over America Scholar

Erik Endacott

Fallon, NV

Iowa State University

College GPA: 3.0

Activities:

- Active Member of the Iowa State International Agriculture Club
- Summer Internship 2016: I will be working for a Farm Supply Company Crop Consultant who services northern Nevada and California.
- Summer 2016 Community Service: Serving as a Boy Scout Troop Adult Leader (teaching plant identification, fire-making, camping skills)
- Summer Internship 2015: I worked for an Iowa State University Professor conducting research on the accuracy of the SMOS satellite in measuring crop canopy (soy bean and corn) moisture content.

I am grateful for the very generous Wings Over America Scholarship. It is a tremendous boost of support in my pursuit of becoming an Agronomist. I hope to put my education to use in developing better ways to grow crops to feed an increasing world population. The WOA Scholarship is a wave of encouragement to spur me forward. The financial assistance allows me to focus on academics. It must take great efforts from many Naval Aviation community members to make such support possible for students. Thank you so much!
