Statement: This scholarship means the world to me, as I would not have been able to attend Syracuse or enter such a competitive program. Being given a scholarship means that I can achieve my goals of becoming a successful reporter, editor, and student. I am excited to start my education and have one less worry going into my freshman year, and being given the opportunity to attend one of the best journalism schools in the nation. Being the daughter of a military service member, I know I am prepared to be far away from home and travel abroad with no worries. I cannot be more thankful for such a background as it has equipped me in ways that no other lifestyle could. Thank you so much Wings Over America for giving me such an opportunity!
