Receiving the 2015 scholarship has been a great honor for me. It has eased the financial burden of college upon my family, and as I am the oldest of six, this has been incredibly helpful. I plan to continue my studies beyond an undergraduate degree, and this scholarship will help me along that path. The Wings Over America Scholarship Foundation has been incredibly generous to me in the past, and the service, time, and effort on the parts of those who donate to the foundation are not taken for granted. I am so grateful for the generosity of all those involved with the foundation, not only because I have benefitted from it, but also because it has provided so many others with the opportunity to pursue scholarship.
