Statement: Receiving the Centennial scholarship has been very impactful. Knowing that WOASF has invested so much time into me and my education and trusted me to represent Wings Over America has been one of my proudest achievements. With this scholarship I am able to pay for my tuition at Florida State University and it's something that I do not need to worry about, which as a college student is a fact that's extremely comforting. I am so very grateful to the Wings Over America Scholarship Foundation who over the past year has held me accountable and taught me all about responsibility. I am very proud to be a 2012 recipient.
