Statement: Receiving a 2012 scholarship award has been such an honor. This award will allow me to continue my dual majors in marine biology and mathematic as I enter my junior year at Old Dominion University. It will help alleviate financial struggles, allowing me to live closer to campus to minimize my daily commute, and focus more on my academics and extracurricular activities. I could not be more grateful for the experiences I have had these past two years, both in and out of the classroom. This scholarship will allow me to continue these experiences in order to further enrich my college experience. Thank you so much to the Wings Over America Scholarship Foundation for giving me this opportunity.
