Receiving a 2015 scholarship has meant a lot to me because of the beneficial impact it will have on my future. The money that I will save on undergraduate school as a result of this scholarship will help alleviate the cost of veterinary school, which I plan to attend after earning my Bachelor's degree in Biomedical Sciences. By reducing my expenses now, this scholarship has effectively increased my options after graduating from veterinary school. Not only does the scholarship help me financially, but it also serves as a source of validation to prove that all my hard work up to this point has paid off. I would like to thank the Wings Over America Scholarship Foundation for recognizing my hard work and making my educational goals attainable by granting me this scholarship.
