I appreciate this scholarship more than words can accurately express. I am extremely grateful to the Wings Over America Scholarship Foundation for helping me attend my dream school while minimizing the debt that often accompanies a college education. While I have always worked hard to get good grades and be admitted to a good university, I have worried about the cost associated with obtaining a degree. This scholarship has allowed me to lessen those worries and focus more on the tremendous opportunities I have ahead of me. Once again, thank you very much for this huge honor!
