As an individual, it is an honor to receive this scholarship. I plan to use the money in accomplishing my biggest goal: a successful life. This scholarship will grant me an opportunity to receive a degree in marketing, which will hopefully lead to a successful job in the business industry. College is not cheap. With two younger siblings, my parents have to conserve their money so that they can receive aid for college. With that, I would like to thank the supporters of the US Navy for all they have given to our family. The money will be put to great use.
