Receiving a 2015 Wings Over America scholarship has reminded me how blessed I am. With this scholarship, I will continue my education as a social work major and an education minor so that I may one day pass on my knowledge to help those in need. With the ever-rising tuition costs, this scholarship will lift a weight off my shoulders so that I can truly enjoy my education without worrying about costs. I am extremely grateful for associations like Wings Over America and your commitment to serving military persons and students in our educational endeavors. Thank you, Wings Over America, for providing me with a scholarship that will help continue my education as a social worker.
