- Year-Round job at Chad's Lawn Services & More

I write this letter with extreme gratitude to Wings Over America Scholarship Foundation for awarding me with a 2015 WOASF scholarship and USS Nimitz scholarship. I am humbled by this honor and feel particularly blessed to be one of your recipients. With college quickly approaching, I have been contemplating how I will cover the overwhelming expenses of my higher education. These scholarships will remove some of the financial burden of my first year of college, which will allow me to focus on my studies and involve myself in campus organizations without having to work as many hours. I am proud to represent the Wings Over America Scholarship Foundation, and once again I greatly appreciate the opportunity this will give me as I endeavor to become an engineer and entrepreneur. I will work my hardest to ensure your contribution to my education is well utilized.
