It is an honor to have received the Wings Over America Scholarship this year. Applying for colleges and scholarships is a trying process, but seeing hard work pay off makes it all worth it. Being selected as a recipient for this award has shown me how applying myself will grant me access to great opportunities, and that hard work doesn't go unnoticed. I intend to follow a Pre-Med track in college, and I'm so thankful that Wings Over America will help me to pursue my goals. This scholarship will allow me to apply myself in undergraduate and graduate courses so that I am prepared for my future career. I believe that community service and leadership are two very important components in my life, and I plan to take the initiative in my college community to improve the lives of others. I am very excited to enter this new chapter of my life and see what I can accomplish in this next year. Thank you, Wings Over America donors, for motivating me to accomplish more in my near future as a college student and encouraging me to apply myself to every situation. I am proud to be able to say that I am a Wings Over America 2022 recipient!
