I am so thankful for the scholarship awarded to me by the Wings Over America Scholarship Foundation. This scholarship will cover all my tuition for my first full year of college and eliminate a huge financial burden I would have otherwise faced. I was a bit worried about how I would make my work schedule, class schedule and study schedule fit together during an especially stressful first year of college, but now I am much more confident that everything will be fine. With this scholarship, I will not have to work nearly as much and will have more time to focus on my studies and get acclimated to college life. I can now look forward to starting college instead of worrying about it, and I believe that I will have a much better chance of thriving in college rather than struggling to succeed. Thank you Wings Over America for helping my dream of attending college a reality!
