I would like to thank the WOASF as well as the USS Abraham Lincoln for awarding me scholarships that will ease the financial burden of my college education. As a military spouse, I am proud to represent a foundation so supportive of military families. I am also a mother of three, and employed as a nurse. Furthering my nursing education will allow me to continue to give back to my community by caring for others. More than just financial assistance, the receipt of these scholarships is inspiring and encouraging. Finally, I am so grateful to our great nation's active-duty and veterans who continue to provide me the freedom to obtain the education some people simply dream of. Thank you WOASF and USS Abraham Lincoln!
