

Lilly Cady

Four-Year Renewable Scholarship Recipient

2018 Bachelor of Science in
Kinesiology

University of Virginia
Curry School of Education

“Receiving this scholarship has been an integral contributor to my success at the University of Virginia. As I approach my senior year and eventually graduation, I reflect back on when I first opened the letter that told me I had received this award. The excitement I felt back then has not dwindled over the past three years as this scholarship has continually allowed me to prioritize my studies, and focus on careers that further my future goal of becoming a Physician’s Assistant. This summer as I shadow a Pediatrician and work as a newly-certified EMT I will gain hours necessary to apply to graduate programs, which would not have been possible without the financial help provided through Wings Over America. I feel extremely grateful for all of the work this foundation does for students, and thankful to be one of the recipients.” (2017)

South University

Physicians Assistant Program—2019

“I graduated from University of Virginia in 2018 with a degree in Kinesiology through the Curry School of Education. I spent a year working in Dermatology as a Medical Assistant in Alexandria, Virginia and I am excited to announce that I begin PA School this January. I was accepted into the Physician Assistant Program at South University in Richmond, VA. Once I complete this Masters I hope to go back into Pediatrics.

Thank you again to WOASF and everything you all have done for me!” (2019)
