

The Wingman Foundation LCDR Landon Jones Memorial Scholar

Zachary Reinert

Aledo, TX

Texas A&M University

2021-2022: Junior

Major: Aerospace Engineering

Minors: Math & Business

While many aspects of life seemingly dissolve with time, one thing has remained a constant motivation for me...hope. Throughout every obstacle in life, this hope has pushed me to not only overcome, but more importantly conquer anything that lies between me and my goal of changing this world. As an aerospace engineering student double minoring in mathematics and business, financial aid poses a tremendous hurdle. Receiving the WOASF scholarship boosts my hope to unprecedented heights. Knowing that an organization is generous enough to sponsor me in achieving an education in the career I have dreamed about for years provides me with motivation and joy that words cannot describe. My future is an unknown puzzle; however, receiving this scholarship is a momentous honor that brings this future to a reality. Yet this puzzle remains unfinished...pieces are yet to be discovered....and a final image is yet to be revealed.
