Major: Biochemistry

Academic & Extracurricular Highlights:

- Varsity Tennis
- Varsity Soccer, Captain
- SkillsUSA
- California Scholarship Federation
- Burger Palace Food Service Worker
- Interact Club
- Volunteer: Our Lady of Lourdes

Receiving this scholarship showed how my hard work and commitment to academics and extracurricular activities were consistent throughout my high school career. I enjoyed playing tennis, and soccer, and being involved in Future Farmers of America, community service activities, and still caring for my siblings while my dad was on deployment. This scholarship will only push me to do well in college and focus on the more important things that will benefit me in the future. This scholarship is also helping me toward my goal of becoming a licensed pharmacist, who one day will open a pharmacy in a small community, similar to the one I live in. I lastly just want to say thank you and I feel truly blessed to be receiving this scholarship, as it is assisting me in reaching my academic and personal goals. The 2024 WOASF scholarship is going to help me, and many others pay for college and focus on our education, rather than worrying more about how to pay for it.
