

From squadron fly-ins to change of command and retirement ceremonies, being part of the naval aviation community has been an integral part of our lives. We are grateful for all the Navy families we have met who have enriched our life over many years.

I joined Wings Over America Scholarship Foundation over 10 years ago. I have seen firsthand how the scholarships the foundation provides make a difference. The gratitude from recipients and their parents is overwhelming. Any donation amount you can give will support a naval aviation child or spouse so they can further their education.
