

Bailey Quinn

Burke, VA

Gettysburg College

I completed my first semester at Gettysburg college. There were several safety protocols put in place, so campus life looked a lot different. Even with these rules, I enjoyed my time on campus tremendously. I had 3 classes in person and one online. I was able to practice with my softball team. It was great being on the field!

I have found great friends and teammates. I finished the semester with a 3.89. I am looking forward to returning at the end of the month for the spring semester. I am so thankful Wings Over America scholarship now more than ever. It has given me the opportunity to focus on school and softball since working during this time is so difficult. Thank you Wings Over America!
