

RADM Jack Godlewski Memorial Scholar

Brice Howe

Virginia Beach, VA

University of Virginia

2021-2022: Freshman

Major: Biology

I am honored and grateful to be receiving a scholarship from the Wings Over America Foundation. This scholarship will help ease the financial burden of college and will be put towards my education at the University of Virginia, where I plan on pursuing a major in biological sciences. I have always taken a special interest in biology, further developing my passion through a summer internship with a local equestrian center. This experience allowed me to work closely with horses and sparked my interest in veterinary medicine. I hope to carry this passion with me to UVA, earning a degree in a field that will supplement my pre-veterinary track. However, this opportunity would not be possible without the backing of the military community and programs such as Wings Over America. I greatly appreciate the WOASF and their donors for their support as I continue my education and strive for future success.
