I am so very thankful for receiving the Wings Over America scholarship award for 2017. This means so much to me because this great organization is helping me achieve my goals of attending Shenandoah University to study Sports Management while playing football. What this scholarship has proven is that once again, hard work does pay off. I am truly blessed with this opportunity and I promise the Wings Over American Foundation that I will not use this gift in vain. I am very grateful to the generous donors who make this scholarship possible.
