I am so grateful for the Maritime Patrol Association for my selection as a scholarship recipient. I know my parents worked hard to make my childhood as normal as possible as a military child, it was tough sometimes, but believe my experiences helped make me who I am today. Growing up, Naval Aviation is all I knew and honored to be given this scholarship from the same people that took care of my family then and now. I'm grateful and humbled to have been selected, since so many have generously given their time and money to help college students like me. I know my parents are proud of my hard work and accomplishments, and this scholarship is the perfect way to show them my appreciation. Thank you for your support!
