Receiving this scholarship award has meant many things to me. It has eased my worry of how I intend to pay for college my junior year. Although the school I attend gives out large academic scholarship, they barely counteract the large tuition expense. I now feel more able to focus on my studies and not feel the looming pressure of finding a way to pay for this upcoming year. I now feel a boost of confidence from receiving this award that I will use to go out and try to find other scholarship opportunities to help pay for the remaining balance of my junior year. Lastly it has showed persistence and hard work pay off as this is my third time applying for this scholarship. I am so grateful to WOASF for selecting me as a scholarship recipient.
