

Lab Realty Scholar

Adam Beaver

Norfolk, VA

Virginia Military Institute

2021-2022: Freshman

Major: Economics & Business

I am honored and extremely grateful for receiving this scholarship that represents what the military represents, and places focus on for the future leaders of America. Receiving this scholarship not only allows me to continue to grow and develop following in my fathers and grandfather's military footsteps, but it also demonstrates the continued support the military community shows toward veterans and their families. The military has played an extremely large role in my life and it will continue to do so while I am attending a military college and start my own military career. It is an honor to be able to be represented and supported by the community in a way that allows me to start on a track to one day hopefully be able to give back to the communities that have and continue to support me today. I am extremely thankful for this foundation for supporting myself and many others in our continued development of leadership skills and values.
