

WOASF Volunteers- East Scholar

Jordan Estes

Virginia Beach, VA

College: Baylor University

2021-2022: Sophomore

Major: Pre-Med

This past year, 2020-2021, has been an extremely challenging time for everyone. As a recipient of one of WAAF scholarships last year, I was given the ability to attend Baylor University for my Freshman year with fully in-person courses. Furthermore, I was able to attend labs and small group classes, allowing me to build fundamental connections with my professors and peers, something that is quite challenging to do through a computer screen. This year, the Wings Over America 2021 scholarship is giving me the opportunity to return to a campus that fully supports in-person classes and works with their students to receive the best possible education considering the pandemic. It has given me the ability to maintain some semblance of normalcy in an otherwise chaotic time filled with uncertainty. Additionally, I can continue my academic path in the Baylor Honors College while studying on the Pre-Med track. I am extremely thankful and blessed for this honor as I look to continue working hard in hopes to pay it forward in the future.
