- High School Orchestra, Co-Conductor of Chamber
- Volunteer: Tutoring, American Chestnut Land Trust and Care Packages for Soldiers
- Summer Employment: Lab Assistant at UMCES Chesapeake Biological Lab, Lotus Kitchen

Receiving the Wings Over America Scholarship is incredibly important to me. With the scholarship I can continue attending the school that has helped me to grow in so many ways and have so many great experiences. I have been able to pursue my rowing career and my education in environmental science. With the help of this scholarship, I can participate in a semester-long environmental science program that will get me hands-on experience in the field. In addition, I can honor my father's military service by upholding the values that have helped to raise me. Service is valuable to living a fulfilled life and this award is a reminder of how important it is to help others and remain involved in the community. Being an active member of the community is highly valued at Washington College and helps to build good citizens. This award gives me the peace of mind in knowing that I can focus on my academics and extracurricular activities without having to worry about how I am paying for my education.
