I am extremely honored and thankful to receive one of the Wings Over America Scholarships. It is hard to express in words how fortunate I am to be a student at Boston College. I am currently studying physics and environmental science and will hopefully be pursuing a PhD in the future. These goals would not be attainable without the help of this scholarship, and the financial support helps me set my long-term plans into action. This scholarship will give me the chance to focus on my academics and the many other opportunities college offers, and I could not be more thankful. Boston College has become my second home, and I am so lucky to be able to continue my education there with the help of this scholarship. I am incredibly thankful for the donors and all those associated with the Wings Over America Scholarship Foundation for supporting me and helping me pursue my goals in higher education.
