I am very grateful to have been selected for this Wings Over America Maritime Patrol Association scholarship. I am currently pursuing a double major in biology and pre-med at Boise State University, with plans to attend medical school after graduation. This generous scholarship will help me complete the first step of my plan, and ultimately reach my dream of a career in the medical field which will give me the ability to help others. In addition, this scholarship will help lighten the financial burden my family is facing because of sending my twin sister and me to college at the same time.
