- Year-Round Employment: Babysitter, Rodan & Fields, Executive Consultant

It is hard to express in words what this scholarship means to me. Auburn University has forever been my dream school and it is completely surreal to know that I will be attending there in the fall. The money provided by the Wings over America foundation is assisting in making that dream a reality. I plan to study Exercise Science with the hopes of following that degree with a doctorate in Physical Therapy. I have worked immensely hard throughout high school to ensure I had the proper qualifications. It is beyond humbling to have someone recognize my hard work and to realize that it has paid off. The scholarship money will be an immense burden from my parents and will open the door to more opportunities that will continue to make my dream a reality. I am incredibly thankful to the donors and those associated with the Wings Over America Scholarship for taking the time to read my application and ultimately choose me.
