LBC Crosse Country Team, LeadNow Mentorship Program, volunteer with Student Activities Team and Vacation Bible School, employed with Peninsula Funeral Home.

Being awarded the Wings Over America Scholarship made a very important impact on my life my freshman year of college and will continue to during my sophomore year. This scholarship will continue to help me financially because it will allow me to focus more of my time on academics, athletics, and business-related extracurricular activities since I will not need to worry about working a full-time job. At my high school, I ran on the cross-country team for six years and those seasons gave me some of my closest friends. This past year, I was able to run cross-country because of the extra time I had gained due to this scholarship. The bonds that I have made with my teammates, both in college and high school, are extremely strong and ones that will last a lifetime. This scholarship will help me to continue to create these lasting bonds. The rest of the extra time that I will have because of this scholarship will be used towards finding valuable business-related opportunities to help provides hands-on experiences to be better prepared for the workforce. Thank you for your generous scholarship that will help me to better focus on my education and my future.
