I am extremely thankful to the Wings Over America Scholarship Foundation for its generosity in helping to fund my education. Because of the Wings Over America Scholarship, I will have more time to dedicate to the clubs and activities that are important to me: building rockets in rocket club, learning to rock climb in climbing club, and connecting with my Cleveland community as an elementary school volunteer. I will also have more time to focus on my academics as I try to make the world a better place through the study of Science and Engineering. The Wings Over America Scholarship exemplifies the Navy's core values of Honor, Courage, and Commitment. It is an immense honor to have been recognized by such a fantastic organization that is making meaningful contributions to so many families. Thank you again to all the Wings Over America donors and volunteers as well as the entire naval aviation community!
