Being awarded this scholarship means the world to me. I am thankful enough to be able to attend the private university of my dreams in Oklahoma. My parents continue to believe in me and never say no to letting me follow my dreams. With their positive support, I can conquer so many things and always remind myself that when one door closes two more open. This scholarship allows me to always see those next two doors and keeps all my dreams a reality. As I step into my senior year of college, I look forward to all the things I will accomplish both during and beyond the four years of college.
