Computer Science

Activities:

- ❖ Duke Project Search
- ❖ Duke Outing Club, Trip Leader
- ❖ Maxwell Selective Living Group,
Recruitment Chairman
- ❖ Duke Debate Team
- ❖ Summer Employment: University of
Colorado School of Medicine, RNA
Bioscience Internship

I am so thankful for the financial support that I have received from the Wings Over America Foundation for the past two years, and my upcoming year at Duke University. This scholarship has helped me to focus on the incredibly demanding classes that I'm taking as a Biomedical Engineer at Duke. With a degree from Duke, I hope to continue my studies and work as a research scientist and potentially enter a PhD program after graduation. Thank you again to the Wings Over America Foundation and the generous donors who have provided the financial assistance that has helped make this possible for me.
