

ANDREW CALIFANO

2018, 2019, 2020 RECIPEINT

The honor bestowed upon me by this scholarship symbolizes the overwhelming support of the military community. The community surrounding the military and its many members are necessary in society, where they bolster and aid many sectors of society and everyday life. I am honored to have the support that is represented by this scholarship, especially after my father's long service in the military. The scholarship and its ideals are close to me, as similar ideals had been taught to me throughout my childhood by my mother and father. This award signifies I will have America and her heroes supporting me in all my future encounters, allowing me to more easily focus on my education in and out of the classroom. This scholarship award means a smoother path to success and to giving back to the communities that helped me. I am extremely grateful for the generous backing of this foundation and the United States military community in general.
