I am incredibly thankful to be a recipient of a 2019 Wings Over America Scholarship. It is an honor to be recognized for my academic achievements and community service throughout my high school career and first year of college. This scholarship will allow me to continue pursuing a major in Biomedical Engineering at the University of Virginia. It will also allow me to try new opportunities that would not have been available without this financial support. I would like to thank all the donors and the Wings Over America Foundation for supporting the Naval Aviation Community!
