Since I am planning on paying for my own college tuition, anything that helps lower the cost of school is very much appreciated. James Madison is highly talked of by my peers and teachers at First Colonial High School. This motivates me to work harder and excites me to attend the university in the fall. This scholarship will help me get closer to my goal of graduating college with as little student loans as possible in addition to relieving me from strenuous hours of working a job to help pay for school. Thank you.
