Having been selected a recipient of the 2020 Wings Over America Scholarship and the Theodore Roosevelt Association Scholarship is an honor and will provide me with the opportunity to continue my education. My journey in attaining my Bachelors' degree in Dental Hygiene has proven to be a very rigorous yet rewarding experience. I have always strived to be my best and have prioritized my academics, collegiate athletic career and giving back to my community. Actively volunteering is an important component of my life, as it gives me the opportunity to have a positive impact on those around me and my community. I am thankful to the charitable donors of the Wings Over America Scholarship foundation and will continue on my quest by giving back to my community, advocating for pristine oral health and to reach my future professional goal of obtaining a Master of Science in Dental Hygiene.
