- ❖ Varsity Wrestling
- ❖ All District Chorus/International Tattoo
- ❖ French Honor Society
- ❖ Robotics Club
- ❖ Volunteer: Feeding the Hungry, Family Readiness Groups
- ❖ Year-Round Employment: Vector Marketing Sales Representative

Receiving a Wings Over America Scholarship will help me achieve my future goals while worrying less about student debt. It has given me more financial freedom and the peace of mind to strive for greatness. I began my high school journey at the STEM Academy at Landstown, spent my sophomore and junior years overseas in Japan, and spent my final year at First Colonial. Needless-to-say, these years have made it tough to find stability. This scholarship has provided it in a meaningful way, giving me a firm foundation from which to grow. I will be attending Virginia Tech in the fall of 2019 to pursue my passions in engineering and technology. I am excited to spend four years learning and honing my skills for my future career. I truly appreciate this scholarship and the opportunities it affords me. I will continue to work hard these next years at Virginia Tech. Thank you so much and go Hokies!
