

# Maritime Patrol Association Scholar

Kallyn Maddox

Bristow, VA

Virginia Tech

2021-2022: Junior

Major: Architecture

This year has looked very different from my last two years in college because of the COVID-19 pandemic and the transition to a mostly virtual experience. Staying motivated and maintaining the academic rigor required of my major have not been easy, so it is truly rewarding to have my dedication recognized during the new challenges that we are facing. I know that I am extremely blessed to attend a school that I love and to study a major that I cannot wait to turn into a career, and I will continue to work diligently, using the time and resources provided to me to the best of my ability. Next year is a pivotal year for my academic track, so by decreasing some of my financial burden, this scholarship will give me the space to focus more on my studies and on preparing for work after college. I am honored to accept this award, and I hope to continue to prove myself worthy of the recognition.
