

Lockheed Martin & USS Carl Vinson Family Readiness Group Scholar

Emma Faciszewski

Poquoson, VA

Christopher Newport University

2021-2022: Freshman

Major: Cellular & Molecular Biology

First, I would like to express my immense gratitude towards the Wings Over America Scholarship Foundation. I am beyond honored to be considered a Wings Over America Scholarship recipient and am so grateful for the opportunity to advance my education. This fall, I will be attending Christopher Newport University as an Honors student. I plan on majoring in Cellular and Molecular Biology with the hopes of becoming a Pediatric Occupational Therapist. This scholarship has proven to me that hard work pays off, and that dedication to academics and community involvement are so rewarding. As a result, I plan to stay involved in a variety of activities during my time at Christopher Newport and expand my horizons. I hope to partake in undergraduate research on a variety of rare diseases, intern at a local hospital, and study abroad to learn more about medicine in developing countries. My goal is to leave a lasting impact on my community and make positive contributions to the medical field, and my Wings Over America Scholarship will help me do just that.
