- ❖ Summer Employment: Bookkeeper for a Cleaning Service

Winning this scholarship has meant the world to me, as it is allowing me to reach my goals and further my education at one of the best universities for premedical programs. I wish to go into a rigorous field with lots of schooling and training required and now that I have this scholarship, I don't have to worry so much about where those needed funds will come from. I am excited to attend the University of Central Florida and pursue biology so that I can one day go into the medical field and aid people from all over. My education has been and will continue to be one of my proudest accomplishments and being able to further that at the school of my dreams, is a dream turned reality. I am beyond grateful for this scholarship and cannot wait to sit in my classes and learn all that I can so that I may help those in need.
