I am grateful and honored to receive the Wings Over America scholarship. The receipt of this scholarship means that my hard work is paying off, WOASF is investing in my future, and I am on my path to achieving my goal of becoming a registered nurse. I pride myself on being a multi-sport athlete where academics always come first. Although I love to compete on the diamond/court, and in the classroom to ensure my success in college and beyond. This scholarship also means I have help in meeting my financial needs for college attendance. As one of two siblings in college, I want to assume greater responsibility and contribute to my education in any way I can. Lastly, I appreciate the confidence that WOASF is instilling in me to pursue my dreams to become a nurse and give back to the community that has given me so much. Thank you for this blessing, the best is yet to come!
