Thank you, Wings Over America, for the wonderful opportunity of being a 2019 scholarship recipient! It means a lot that my achievements, both academic and otherwise, are being recognized by your further investment in my education. With my third year of college behind me and having gained experience in the field of physical therapy, I am that much more motivated to continue working hard to reach my goals. School can be quite hard at times, but I've got my eye on the prize and cannot wait for the rewarding feeling of getting there. By receiving this scholarship, I have fewer financial worries on my mind and can focus more energy on my studies, so thank you again for this opportunity and recognition.
