I am grateful and humbled to have received a 2021 Wings Over America scholarship. This scholarship reminds me of all the support and belief that the organization has in me, and it helps me stay committed to my goals and my education. I plan to attend medical school after graduation, and this scholarship helps lessen the financial burden of my undergraduate degree to make that goal my reality. This award makes me feel better prepared to tackle my college education and more able to focus on projects outside of school; I can continue to pursue science and medicine and to take full advantage of the opportunities offered to me at UCLA. I would like to thank all the donors for their generosity and unwavering support of students pursuing higher education. I am incredibly grateful for this award and I am excited to see what my future holds.
